

# Phonics Game

## You will need:

- A counter per person
- A dice
- A pencil

## How to play:

1. Each player places their counter on the start space.
2. The player who is going first rolls the dice and moves their counter the number of spaces shown on the dice.
3. On every square, there is a word or an instruction. If you land on a word, you must read it out loud to the rest of the group and then write it in the correct space on your game sheet.
4. If it is real, you write it in the three little pigs' column. If it is nonsense, you write it in the wolf's column.
5. If you land on an instruction, you must follow the instruction.
6. Play then passes to the next person.
7. The winner is the first person to finish.

## Challenge Task

How many words can you think of that start with one of the /f/ graphemes (f/ff/ph)? Work with a partner to write down as many as you can on your whiteboard.

Write down as many words as you can think of that end with a f sound (f/ff/ph).

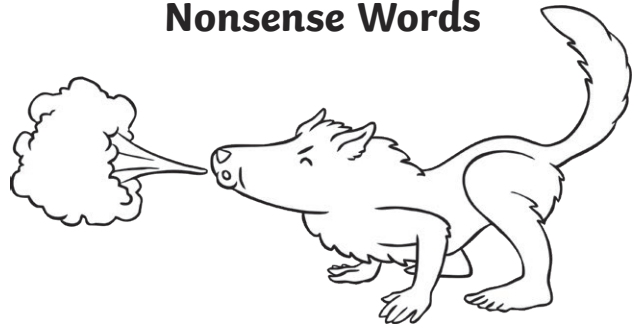

Make up three alien (nonsense words) that have a f phoneme in them. Write these on your whiteboard.
