

# Summer Half-Term

## Home Learning Challenges

Holidays are a great time to do some baking. Work with a grown-up to make some tasty cakes and treats to share with your family and friends.

Can you ride a bike? This is a great week to try and practise. If you can ride your bike already, maybe you could go on a long bike ride. It doesn't have to be a bike; a scooter or trike are just as much fun!

Lucky you! You are on half-term! What exciting things could you do? Have you ever flown a kite? If you have one, you could take it to the park and see if it will fly. Don't worry if you don't have one, maybe you could make one using a bin bag, some canes and some string. Let's go fly a kite!

Make some really wild art! Collect some natural objects, such as leaves and twigs from your garden or park and get creating! You could make a collage picture or a fabulous model.

It's fun to play a game of hide and seek with your friends or family. This is a great game to play, whatever the weather, because you can play it inside or out. Can you think of a great place to hide?

Can you make a den? If it's a rainy day, you could make one using chairs and blankets. If it's nice weather, you could make one outside, maybe in the park or woods, using sticks and branches.
